COLE, ADA A. and COLE, JR., MADISON B. Are perivascular cells in cartilage canals chondrocytes? 1

OHMORI, J., MIYAKAWA, K. and KOTANI, M. Migration of carbon-laden peritoneal macrophages into the thymus of autoimmune New Zealand mice 9

BODEGA, G., SUAREZ, I. and FERNANDEZ, B. The possible secretory function of astrocytes in the marginal nuclei of the avian spinal cord 19

MAINA, J. N. The morphology of the lung of the East African tree frog *Chiromantis petersi* with observations on the skin and the buccal cavity as secondary gas exchange organs. A TEM and SEM study 29

ULLMANN, SUZANNE L. Ovary development in bandicoots: sexual differentiation to follicle formation 45

FRASER, B. A. and SATO, A. G. Morphological sex differentiation in the human embryo: a light and scanning electron microscopic study 61

OKE, B. O., AIRE, T. A., ADEYEMO, O. and HEATH, E. The ultrastructure of the epididymis of the African giant rat (*Cricetomys gambianus*, Waterhouse) 75

YOSHIOKA, T. and TANAKA, O. Ultrastructural and cytochemical characterisation of the floor plate ependyma of the developing rat spinal cord 87

TIMSON, BENJAMIN F., DUDENHOEFFER, GREGORY A. and JANKOWSKI, REGINALD B. Relationship of fibre number among muscles in the laboratory rat 101

BELLONI, ANNA S., MUSAJO, F. G., BOSCARO, M., D'AGOSTINO, D., REBUFFAT, PIERA, CAVALLINI, LETIZIA, MAZZOCCHI, GIUSEPPINA and NUSSDORFER, G. G. An ultrastructural stereological study of accessory adrenocortical glands in bilaterally adrenalectomised rats 107

CRUZ, MARIA V. DE LA, SÁNCHE-GÓMEZ, CONCEPCIÓN and PALOMINO, MIGUEL A. The primitive cardiac regions in the straight tube heart (Stage 9$^-$) and their anatomical expression in the mature heart: an experimental study in the chick embryo 121

LAITINEN, A., LAITINEN, L. A., MOSS, R. and WIDDICOMBE, J. G. Organisation and structure of the tracheal and bronchial blood vessels in the dog 133

LEONG, SENG KEE and WONG, WAI CHOW Sensory, motor and sympathetic neurons forming the median nerve in the pig-tailed monkey (*Macaca nemestrina*) 141

LUKE, D. A. Cell proliferation in palatal processes and Meckel's cartilage during development of the secondary palate in the mouse 151

SMITH, J. and MCLACHLAN, J. C. Developmental pattern of growth factor production in chick embryo limb buds 159

JACOB, S. and LAWRENCE, A. G. Effects of protein malnutrition on the mouse submandibular gland 169

NAGATO, TOSHIKAZU, NAGAKI, MASAMI, MURAKAMI, MICHITAKA and TANIOKA, HIROAKI. Three-dimensional architecture of rat lingual filiform papillae with special reference to the epithelium–connective tissue interface 177

VECINO, E., COVEÑAS, R., ALONSO, J. R., LARA, J. and AIJÓN, J. Immunocytochemical study of substance P-like cell bodies and fibres in the brain of the rainbow trout, *Salmo gairdneri* 191

TINGARI, M. D. The fine structure of the epithelial lining of the epididymis of the camel (*Camelus dromedarius*) with special reference to regional differences 201

TRENOUTH, M. J. Craniofacial shape in the anencephalic human fetus 215

FARQUHARSON, COLIN and ROBINS, SIMON P. The distribution of elastin in developing and adult rat organs using immunocytochemical techniques 225

HAUSER, G., DAPONTE, A. and ROBERTS, M. J. Palatal rugae 237

MCDONALD, S. W. and SCOTHORNE, R. J. The response of the regional testicular lymph node six and nine months after vasectomy in rats 251

DEVASUNDARAM, BETSY, PRAKASH, D. J. and DEVANANDAN, M. S. An analysis of various ventral roots and corresponding motoneurons in the bonnet monkey (*Macaca radiata*) and a comparison of the ventral roots destined to innervate the upper limb in species of various mammalian orders 259

MAHDI, A. H. and MCLELLAND, J. A morphometric study of the rectocoprodeal sphincter in the domestic duck 269

BROOME, G. H. H. and HOUGHTON, G. R. ANATOMICAL NOTE. A congenital abnormality of the tibial tuberosity representing the evolution of traction epiphyses 275
